

Azure Strategy Workshop

Plan and define a strategy with us

With this workshop, you will gain insight and best practices to create an individual strategy for your journey to the cloud. Turning this strategy into a solid and actionable plan will lead your business teams to achieve their goals.

Justify motivations

- Understand and interpret motivations in a cloud-ready approach
- Dive into the details and build a business justification

Cloud Strategy

- Define overall goals
- Create partial plans and appropriate streams
- Use cloud competencies and control units
- Define an adoption framework

Bring it to live

- Plan your teams and clarify responsibilities
- Define further important steps and catch the timelines
- Take care of details and key points
- Become ready for Microsoft Azure
